OFFICE OF THE SECRETARY

In the matter of:)

Amendment of Section 73.202 (b))

Table of Allotments)

FM Broadcast Stations)

(Nanakuli, Hawaii))

RM-_____

PETITION FOR RULE MAKING

In this petition, Mountain West Broadcasting is hereby requesting to allot channel 295A (106.9 Mhz) to Nanakuli, Hawaii as its first local FM allotment.

INTRODUCTION

1. This statement is a petition for rule making to allot FM channel 295A (106.9 Mhz) to Nanakuli, Hawaii and add it to the Commission's FM table of allotments, 73.202. The following will show the need for an FM channel and the effects the allotment of Channel 295A to Nanakuli will have.

DISCUSSION

2. Nanakuli is located on Oahu island. It is also located within Honolulu County, a county of some 836,231 persons. Nanakuli has a population of 9,575 persons in accordance with the U.S. 1990 census.

3. The allotment of channel 295A to Nanakuli will provide the first local broadcast facility to the community and/or the surrounding area. The closest FM allotment is located at Waipahu, Hawaii. Waipahu is located 5 kilometers from Nanakuli.

It is obvious that from the above spacing that Nanakuli is presently without local FM service.

4. Nanakuli would greatly benefit from an FM allotment due to the fact there is no AM or FM broadcast facilities within 5 Kilometers of Nanakuli. Because of this, it would have an outlet for local self expression. Health and safety for the community would be increased due to having a local communications outlet for warning the area of emergency conditions caused by severe weather or other health hazards.

5. Channel 295A can be allotted to Nanakuli and meet all rules and requirements of the Commission. The instant proposal will not cause a change in the channel number or a deletion of any channel now appearing in the Commission's table of allotments 73.202.

	<u>Present</u>	<u>Proposed</u>
Nanakuli, Hawaii	-----	295A

6. In accordance with 73.207 of the Commission's rules, "Minimum Distance Separations between Stations", all allotments on Channel 295A and the pertinent adjacent channels to 295A have been studied with the results listed in Figure 1 of this petition. The geographic coordinates used for the spacing

Study (N 21 - 23' - 30", W. 158 - 08' - 30") are that of a site located within the community of Nanakuli. No site restriction will be required to allot channel 278A to Nanakuli. Many suitable transmitter sites are available to provide city grade coverage (3.16 mv/m or 70 dbu) to the entire community of Nanakuli. These sites would also provide full minimum spacing requirements to other allotments.

CONCLUSION

7. It has been shown that Nanakuli would benefit from the allotment of channel 295A. It has also been shown that channel 295A can be allotted to Nanakuli and meet all rules regarding spacing from other stations. Considering these two facts, Mountain West Broadcasting hereby requests that the Federal Communications Commission institute a Rule Making proceeding to amend the Table of Allotments to include channel 295A for Nanakuli, Hawaii , 73.202.

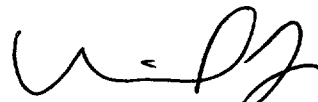

8. Should channel 295A be allotted to Nanakuli, I certify that I will file an application for a Construction Permit to operate an FM station for Nanakuli, Hawaii.

CERTIFICATION

9. I certify that I have prepared or directly supervised the preparation of this entire Petition for Rule Making, and that the facts contained within are true to the best of my knowledge, information and belief, accurate and true.

Dated: March 1, 1999

Respectfully submitted,

Victor A. Michael Jr.
